CORRECT-ON TIME-SECURE

Snack Vending Machine Description

The Snack Machine has a 32-selection to suit for smaller locations such as teachers' lounges, beauty shops, and barbershops. The Snack Machine is for medium size locations with 40-60 employees. These machines are built with heavy gauge steel and will stand up to any environment. Every one of our machines goes through our extensive refurbishing process so that when it is finished it looks and works like brand new. Many parts are replaced since we have had years of experience knowing just what to replace to make the machine work correctly.
